Outdoor mechanical timer with twilight sensor, Schuko, 16A/230A, IP44

The device is designed for household and general-purpose applications and it is suitable for indoor and outdoor use. Mechanical timer with twilight sensor is responsible for switching the power in the electric socket (F-type) on and off, within a specified time interval. The device controls other electrical appliances (e.g. lighting) plugged into it. The sensor has got four work modes: always ON, always OFF, intervals (2,4,6,8h), from dusk till dawn.

Standard of the socket:

schuko (type F)

Degree of protection (IP):

44

TYPE

Type of socket:

2P+Z

OTHER

Other features:

Night detector

Max. load:

3680W

General information

Type: mechanical

Nominal voltage: 230V~, 50Hz

Standard of the socket: schuko (type F)

Type of socket: 2P+Z

Max. load: 3680 W

Current: 16 A

Degree of protection (IP): 44

Built-in battery: no

Dimensions - width: 56 mm

Number of programmes: 1

Installation: mains power supply

Dimensions - height: 111 mm

Dimensions - depth: 83 mm

Other features: Night detector
